

## Brahma Kumaris Environment Initiative

# Plastic Free Yagya

Plastic has become a major environmental and health hazard, as it ultimately breaks down into microplastic, which can be found all over the planet. Meanwhile, the usage of plastic bags, bottles, straws, utensils, polystyrene cups and food packaging has spiraled out of control. Brahma Kumaris Environment Initiative aims to reduce the usage of plastic in the BK centers. Let us help nature - be an example!

### Start Now :

- Pack tolis plastic free
- Avoid plastic in your fridge and household
- Avoid using plastic water bottles
- Buy plastic free
- Sign up and share your experience
