

CELEBRATION OF THE EARTH DAY

On the 21 of April 2014, At the MINAE (Ministry of Environment) in the city of Cartago, in Costa Rica Brahma Kumaris was invited to conduct a Workshop to celebrate the Earth day with the local office of the ministry and Community leaders of the zone.

Valériane Bernard facilitated a workshop on “sustainability and consciousness”. There were 70 participants coming from the office of the ministry, community leaders, and farmers of the region. This event had a significant impression in the participants, and a major impact on the head of that office, the Director, whom was interested in understanding the spiritual perspective of caring about the environment. He wants to continue to work along with Brahma Kumaris to capacitate the community leaders to have this new perspective in their sustainability efforts.
