

## “New Thinking Creates New Realities...”

Wednesday 25 June, 13.00 - 14.30, Lunch Networking Event

@ Aloft Hotel

Place Jean Rey 3, 1040 Brussels

Sustainable transitions demands a new mindset... and the “call of time” is asking for a profound shift in awareness - a shift in thinking that is creating our current crises. By extending sustainable transitions conversations within the public domain to include the inner dimension, consciousness and awareness, will transform the quality of the conversation and possible agenda for action amongst stakeholders. So what is the shift in awareness that can ease the transition to the vision we hold? What is the vision?
