**Our awareness directly determines our actions and behaviors. In the past, our limited awareness has created actions of exploitation leading to over-consumption, widespread famine and ecological demise. Creating a new awareness that assigns deep value to the self, our global family, and the natural world can facilitate true change. Our panel of experts will speak on different topics considering awareness, so we may understand how to voluntarily, wisely and transparently commit, to realize the future we want.**

**Organized by:** Brahma Kumaris World Spiritual University (BKSWU)

**Co-sponsored by:** Global Peace Initiative of Women (GPIW), Temple of Understanding (ToU), The Conference of NGOs in Consultative Relationship with the United Nations (CoNGO) and United Religions Initiative (URI)
