

Brahma Kumaris Celebrating World Environment Day

Prajapita Brahmakumari Ishwariya Vishwavidyalaya also been organizing World Environment Day every year on 5th of June in their head office & their all branches across in India Country.

This Institution is also been supporting for GO GREEN

[World environment day \(click here for more details\)](#) is a campaign established to bring positive environmental changes all over the world to make life better and more natural. Environmental issues are big issues today to which everyone must be aware and give their positive efforts to solve such issues.

World Environment Day (WED) is a campaign celebrated every year by people worldwide on 5th June. This campaign was established to raise the global awareness about the environmental issues as well as take positive environmental actions. It is handled by the United Nations Environment Programme and was established by the United Nations General Assembly in 1972. It is a day to especially focus on the current environmental conditions to make environment better. It is celebrated in more than 100 countries. It is the day when public and politicians get stimulated through awareness programs regarding the environment to enhance the political attention as well as public actions. This day was created to promote people to work for environmental issues and become active agents of the sustainable and eco-friendly development worldwide.

The main objectives of this campaign are encouraged among public by the media and celebrities through endorsing and participating in its celebration. The goodwill ambassadors from United Nations Environment Programme send messages worldwide to take actions for World Environment Day. This campaign makes a call to the people to join its celebration event in mass numbers to gain awareness of the real environment conditions and be an agent for the effective programs for environmental issues to combat climate changes. We should be involved in the celebration and take a pledge to save our environment for a better future.

Other than the celebration of world environment day by the host city, it is individually celebrated by the countries in their states, cities, hometowns, schools, colleges, public places, etc with parades, clean-up activities, concerts, recycling initiatives, tree plantation, including all kinds of green actions to motivate and inspire people to remedy the bad condition of this beautiful planet. It is not a public holiday thus all the schools and offices remain open and no one gets the day off.

It is an initiative to work together for taking some positive actions to maintain the beauty of the planet. We should keep in mind all the objectives of this campaign all around the year. We should convert the objectives into actions accordingly in the form of beautifying the surrounding areas through plantation and cleanliness, saving water, less of use of electricity, using organic and local foods, save wildlife etc. We have only one planet to live on, it is our home and only we are responsible to maintain its natural beauty forever.
