

Caribbean Green Awareness Tour 2017

St. Maarten - Barbados - Suriname - Guyana - Trinidad - Grenada - Curaçao

Brother Golo was invited to the Caribbean region to share about the link between the environment and our state of mind. It became a full service tour meeting many individuals who are concerned about the climate change, deterioration of sensitive coral reefs and increased hurricanes. It was new for many that we can influence the world with our attitudes and power of thoughts. Sister Devki in St. Maarten initiated the invitation, so the tour started there and then to Barbados. Please see separate reports from Guyana, Suriname and Trinidad.

St. Maarten, Philipsburg - 8th May - Lecture: Healthy Mind, Healthy Planet

Barbados, Bridgetown - 14th May - Lecture: World in Transition
