

North America
Brahma Kumaris Environment Initiative
4TH ANNUAL GREEN RETREAT
JULY 30 – AUG 2, 2015
@ PEACE VILLAGE LEARNING AND RETREAT CENTER, NY

BK. Neville Hodgkinson

We are delighted to welcome special guest Neville Hodgkinson, a writer, journalist & medical and science correspondent of several national newspapers in the UK including The Sunday Times, Sunday Express, and Daily Mail. Neville's first book, *Will To Be Well – The Real Alternative Medicine*, was one of the first to describe the intimate links between health and happiness in terms of modern scientific findings. His interest in mind-body medicine led him to take up the practice of meditation and spiritual study in the early 1980s, and he has been a student and teacher for more than 30 years with the Brahma Kumaris World Spiritual University.

Green Retreat Theme: Mind and Matter - The Confluence of Two Living Systems: Human beings and all living things are a blend of energy in a field of energy, connected to every other thing in the world. Thus, we can perceive and only understand the universe as a dynamic web of interconnection. The current state of the world is a reflection of the state of our collective interconnected consciousness. We need to act on this knowledge to change our thoughts, words and deeds which ultimately will change our world.
