## **Living well within the limits of our planet...!**

**Sister Jayanti, in dialogue with Joachim Golo Pilz, an entrepreneur in the field of solar power and alternative energy forms.**

***An evening to see ourselves and our world differently and ask the questions you have always wanted to ask!***

**Sister Jayanti, Director of the Brahma Kumaris Europe & Middle East, with over 40 years experience is a spiritual expert on the living system of thought and how it impacts the living system of matter:**

*“Consciousness and thoughts impact the physical state of our world. They create the attitudes behind decisions and lifestyles, potentially resulting in environmental issues. I believe the solution lies in a profound shift in our awareness as well as in our lifestyles.*

**Joachim Golo Pilz, Director, Solar Research Institute**  
*The world is to a certain extent a reflection of our inside. So if we want to clean up the world outside we have to clean up inside and become peaceful, relaxed and tolerant.*
