

Green Newsletter May

Dear Friends,

Welcome to May edition of our Green Newsletter. As we all know, the Covid 19 has changed the global landscape. We hope that the present insights will remain in the new normal – how we value and appreciate a simple lifestyle, time for personal reflection and nourishment of communities.

The lock-down time has also brought creativity to us, for example Lockdown Upliftment from Australia and Online Kitchen and Terrace training from Rural Wing, India.

Australia Green Team

[Lockdown Upliftment](#) - For a bit of fun and connection with each other and nature at this time.

[May/June E-Calendar](#)- We hope you will be inspired to integrate at least one Eco program per month into your schedules.

Online Gardening, India

Agriculture and Rural Development Wing is organizing 3 days online training in Hindi on Kitchen and Terrace Gardening from 10 to 12 May 2020. You can see the [3 part video and a yogic farming cartoon in Hindi](#)

World Environment Day 5th June

Theme: Time for Nature – TIME to wake up, to take notice, to reimagine our relationship with nature. [Find out what you can do](#)

Online Healing Our Earth Summit

Brahma Kumaris global contribution to World Environment Day will be a 7 hours online summit with contributions from 7 continents/regions on Sunday 31st May. We will send updates closer the date. [Follow the summit](#)

[Tribute to Dadi Janki from India-One Solar Team](#)

More on the link between the Corona virus and the environment

Arnold shares shocking confirmation of degradation in the [documentary Planet of the Humans](#). Also that unlimited growth is not possible in a world with finite resources.

Golo shares a list of articles indicating that the destruction of Habitat Creates the Perfect Conditions for Coronavirus to Emerge. Epidemics are a mirror of society.

[Listening to Earth with contributions from Radha in Rome](#)

Sister Jayanti visit Tapovan in April: Class took place in the lovely and beautiful Meditation Hall. Yogic Agriculture has been taken up in a big way here, with regular trainings for BK/Contacts Farmers taking place. Experts from various areas of agriculture gather here to help as well. We have 75 acres of land in Tapovan and it is really a very lovely place with many fruit trees and plantations of vegetables.

Peaceful Greetings
Brahma Kumaris Eco
and your newsletter editors
Peter, Golo, Arnold, Sonja
